CABLE ADDRESS "STACKOIN" NEW YORK

DONALD D'AMATO, Auctioneer

Welcome to New York

We cordially welcome you to attend the Metropolitan New York Numismatic Convention on the first weekend in May.

Those of you who have been in New York at this time know how delightful your experience will be. Those who have not been here should not miss the opportunity. This is the finest time of the year. The flowers are beginning to bloom, the trees are green, and everything around New York has taken on its Spring clothing.

We are sure that the Convention itself will give all coin collectors a delightful experience. There will be beautiful exhibits, a bourse of the best known dealers in the United States, a sale of very choice material, and amusements and entertainment galore.

The nine New York Metropolitan Clubs sponsoring the Convention are active, wide-awake organizations which are going all-out to make this a memorable meeting. The facilities at the Park Sheraton Hotel are of the best. The hotel is centrally located near the shopping district, the theatre district and Central Park. Those desiring hotel reservations should act at once to make sure that they will obtain what they wish.

Not only will there be all the sights of New York for the entertainment of the visitors, but there will be major league baseball games, television shows and many other activities to suit the most fastidious taste.

While we do not say that this will be the greatest Convention ever held, we do feel that no others will have surpassed it. You will here meet old friends from all over the United States and undoubtedly will make new friends. You will learn much about collecting. The American Numismatic Society is located within the City, where you will find the finest numismatic material of all ages and all countries, with experienced enthusiastic experts to discuss any of your problems with you.

Those desiring reservations at the Park Sheraton should communicate direct with the hotel and save delays and misunderstandings, and we urge that you do so immediately.

Set May 4th, 5th and 6th of 1956 aside as a MUST. Bring your wife and family. Come early and stay late. Enjoy this Convention.

LARGE CENTS

107 1793 S-1 Chain AMERI variety. Natural brown with some indications of handling but still most acceptable. Very Good-10. **PLATE.**
108 1793 S-3. Chain AMERICA. Uneven and well worn brown, but mostly legible and much better than it sounds. Very Fair-3.
109 1793 S-4. Chain AMERICA. An exceptionally fine specimen of **the Periods variety,** rarest of the chain cents. Nicely toned dark steel with only one serious edge dent removing it from the Very Fine-30 class. With what has the appearance of an unlisted obverse rim break fully 8 mm. long opposite profile. Ex Wurtzbach. **PLATE.**
110 1793 S-4. Chain AMERICA. Another Periods, this about a Very Good-10 and showing intermediate die breaks behind lower locks. Surface somewhat roughened but a not unattractive light brown mottled with red.
111 1793 S-9. Wreath. Natural light brown showing much wear. Date only partly legible and attempted perforation marks on reverse. Still a 1793, and evenly balanced and worn. Fair-2.
112 1793 S-11a. Wreath. Now a Rarity 6, and quite a passable specimen which could be improved by a knowledgeable hand. Mottled brown with slightly flaking planchet and uniform wear and handling. Very Good-8. **PLATE.**
113 **1793 S-14.** Liberty Cap. A strong example of the famed Bisecting Break Liberty Cap. Evenly toned black brown, fully a Very Good-8 with the reverse especially nice. Faintly pitted and roughened surface do not in any detract from the appearance or the high desirability of this **rara avis.** **PLATE.**
114 1794 S-49. With the sharpness of a VF-30 though slightly spotted and handled. Dark steely brown, obverse showing die break thru E. Above average.

115 1794 S-46. Light brown VF-25, a sturdy and most attractive '94.

116 1794 S-70. Just about VF-30, dull brown, sharp and with well-preserved surfaces. Excellent coin for type or one-of-a-date collectors. **PLATE.**

117 1794 S-56. Superior specimen of the noted Office Boy reverse. Mottled black brown, a full Fine-15, with attractive surfaces and even wear. Try and get a better one of this variety.

118 1795 S-78. Plain edge, dark brown with roughened surfaces but sharply struck. Fine-15.

119 1795 S-76b. Plain edge. Medium brown, worn but with everything fairly distinguishable. G-6.

120 **1796 S-88. Liberty Cap.** Deep-set olive brown, with EF-40 sharpness but slightly roughened surfaces and small planchet clip. Entirely free of handling defects. Since S-88 is a Rarity 6, with a low CC of 40-20, variety and condition collectors alike will recognize this cent as one of the first magnitude. **PLATE.**

121 1796 S-91. Liberty Cap. Run-of-the-mill specimen with reverse almost entirely gone but acceptable obverse. Medium brown, G-4.

122 1796 S-111. Draped Bust. Medium steel brown, with even wear and the slightest of handling defects. A full F-12, which is quite significant since the CC is low at 60-20. Excellent type coin and even better one from the variety standpoint, a Rarity 5. **PLATE.**

123 1797 S-138. Dull steel gray, F-15, slightly handled but still sharp with date especially bold.

124 1797 S-139. A nice VF-30 with no handling marks whatsoever and very little wear. Toned a beautiful steel gray, with unmarred, lustrous surfaces.

125 1798 S-151. Close overdate. Olive, unevenly struck and not more than a G-5, but still showing all salient features and surprisingly attractive. Very popular with type collectors.

126 1798 S-161. Wide date, with massive reverse rim break. Dark steel, but slightly handled and bent. Still an acceptable VG-8.

127 1800 S-196. Overdate. Just about a VF-30 largely free from wear and with very few handling marks. Nice light brown with exceptionally smooth surfaces. Ideal type coin.

128 1800 S-212. Chips variety, early die state. Close to a VF-20, but with a few handling imperfections. Reddish brown and a prime specimen of the variety.

129 1801 S-213. Four Wavy Cracks variety. Attractive lustrous olive, especially strong obverse but roughened reverse. F-15.

130 1801 S-221. Corrected Fraction. F-12, uneven grayish brown, but everything quite distinguishable. Reverse shows massive rim break over STA. Hard to find better.

131 1802 S-231. First stemless wreath. Just about a VF-20. Medium brown, nicely balanced, little handling. Good type coin.

132 1802 S-239. Perfect obverse die, uninjured reverse die, and rare so. Sharpness of VF-20, but slightly handled. Nice rich brown and quite a superior specimen for the variety.

133 1802 S-242. Dark brown, F-15, sharply struck—nice coin.

134 1803 S-243. Stemless wreath. Medium brown, F-12, terminal state on obverse die. Worn in spots and with a few nicks but still presentable for the variety. Famous type coin.

135 1803 S-251. Mottled brown and black, strongly struck and well preserved, a full EF-40.

136 1803 S-256. Dull steel, VF-25, very close to VF-30. Sharply struck and with little wear and no handling marks. A very scarce variety in addition to its desirability from a condition standpoint.

137 **1804 S-266.** Lustrous steel gray, with reverse particularly attractive and just about VF-30. The obverse is somewhat pitted and quite indistinct, possibly from being smoothed to remove the pitting. Obverse and reverse rim breaks. Overall, this coin would grade F-15, still much better than the average 1804. Ex Max Mehl.

138 **1804 S-266.** Another, also with both sides showing the rim breaks. Has the sharpness of F-15 or better but extremely rough and pitted surfaces bring it down to VG-10. Dark olive brown and rather attractive in spite of its imperfections.

139 1805 S-267. Blunt 1. Dark steel gray, sharpness of EF-40 but pitted. The obverse is unusually attractive. Ex Wayte Raymond.

140 1805 S-267. Another blunt 1, this from the Roach Sale. Light brown, VF-30. Lustrous and desirable.

141 1805 S-267. Still another blunt 1, for the bidder who missed on the preceding two. Nice dark brown and VF-20, but slightly mishandled.

142 1807 S-273. Large overdate. A very passable F-15, attractive light steel gray in color. Popular type coin.

143 1807 S-276. Perfect date, upset reverse. A trifle unevenly struck but with the full sharpness of EF-40. Dark olive black with slightly roughened surfaces. As nice an 1807 as is likely to turn up.

144 1808 S-278. Dark steel, about F-12, but surface rough and corroded, with bad gouge at ninth star.

145 **1809 S-280.** Exceptionally sharp for this variety, which usually comes with a weak obverse. Olive green, VF-20, and could be improved at least 5 points by a little elementary removal of surface dirt. A real sleeper.

146 1809 S-280. Another, this is the more usual state of the cents of this year. Light brown, somewhat soiled and handled, fairly strong reverse, weaker obverse. Overall, about VG-8.

147 1810 S-281. Overdate. Light brown, evenly worn and patinated, F-12.

148 1810 S-281. Another overdate, sharper than the last, but slightly pitted on the obverse. Dark brown, F-15, fine reverse.

149 1810 S-283. Dull gray brown, F-15, well struck. Another cent that could be cleaned to advantage.

150 **1811 S-286.** Overdate. Attractive light steel brown with almost perfect even wear and no mishandling marks. Most acceptable VG-10 example of very popular type coin.

151 **1811 S-287.** Perfect date. Dull, rough olive, F-15, but very presentable and a good mate for the preceding lot.

152 1813 S-293. Close Star variety. Dark brown, worn and handled but uniformly so. About VG-7.

153 1814-S-295. The Plain 4 variety. Brown steel, with the sharpness of EF-40, but with some corrosion adhering around the stars and letters. Perfect obverse die.

154 1816 With heavy die break on rim edge dark olive. Extra Fine.

THE EDGAR ALLEN MASON COLLECTION OF COLONIAL AND CONTINENTAL CURRENCY

The collection of Colonial and Continental currency listed below is one of the most extensive we have seen in some years. In forming it Mr. Mason was guided by two basic thoughts. He wanted to gather together a broad representative group of Revolutionary and pre-Revolutionary notes issued by the Colonial Governments, the early States and the Congress. In addition he searched persistently for finest specimens obtainable in each series.

Mr. Mason's emphasis on quality material is reflected in the remarkable condition of most of the notes in his collection. Anyone familiar with Colonial notes is aware that all of them issued before 1770 are generally found in the most wretched condition. This is particularly true of Pennsylvania and South Carolina notes and with Delaware, New Jersey and Maryland notes that antedate the mid 1770's. With this in mind we call your attention to the Delaware 20 Shilling note of 1759 (#1097), the Massachusetts 36 Shilling note of 1775 (No. 1117), the two early New Hampshire issues (Nos. 1132 & 1133), the 1775 unlisted Virginia Pound Note (1198) and several of the Pennsylvania series. Many are unpriced and are rare even in poor condition. In the condition offered they are among the finest obtainable.

This historical background of many of the notes is unusual. Some were printed from plates and blocks engraved by Paul Revere, or were printed in the Shop of the firm of B. Franklin and D. Hall in Philadelphia. In addition several were signed by Francis Hopkinson, George Clymer, John Morton and John Hart, all of whom were also signers of the Declaration of Independence. Others were signed by Colonial Governors and Mayors—all men prominent in the Revolution.

In view of the scarcity of most Colonial notes they should prove one of the best Numismatic investments. The age factor of approximately two hundred years is bound to take its toll of those notes still in existence. A constant rise in price may confidently be predicted for the limited quantity remaining that are of superior quality. In closing it can be observed that since few collections of this caliber have come on the market the bidder should realize that the standard publications are a poor price guide for notes in such **SUPERB** condition. Material of this quality should bring exceptionally liberal bids.

COLONY & STATE OF CONNECTICUT

A larger percentage of Connecticut notes are found cut-cancelled than those of any other Colony. The cancellations have been made with a sharp tool and do not disfigure the notes listed below. All of them are exceptionally clean and well printed and should bring premium bids.
